

LAKSHIT SUTHAR

Data Scientist | Data Analyst

Udaipur, Rajasthan, India | lakshitsuthar158@gmail.com | [linkedin.com/in/lakshitsuthar](https://www.linkedin.com/in/lakshitsuthar) | github.com/lakshitbuilds

PROFESSIONAL SUMMARY

Aspiring Data Scientist and Data Analyst with practical experience in Python, SQL, and the Pandas/NumPy/Matplotlib stack for data cleaning, exploratory data analysis (EDA), and visualization. Built multiple data analysis and web-scraping projects alongside Flask- and Django-based applications integrated with MySQL, translating raw data and business requirements into structured, working solutions. Currently pursuing an MCA with a foundation in basic machine learning concepts; looking to contribute analytical and technical skills to a Data Science or Data Analytics internship.

TECHNICAL SKILLS

Languages: Python, SQL, Java (OOP), C

Data & Analytics: Pandas, NumPy, Matplotlib, Exploratory Data Analysis (EDA), Data Analysis, Data Visualization

Machine Learning: Basic Machine Learning Concepts & Implementation

Web & Scraping: Web Scraping, Flask, HTML, CSS

Databases: MySQL, SQLite

PROJECTS

Hospital Management System | *Django · Python · MySQL · HTML · CSS · Bootstrap · JavaScript*

- Developed a role-based hospital management web application using Django and MySQL to manage patients, doctors, receptionists, and administrative operations.
- Designed separate dashboards and workflows for Patient, Doctor, Receptionist, and Admin roles with role-based access control.
- Built appointment booking, patient registration, doctor management, medical records, prescriptions, notifications, and profile management features.
- Implemented responsive, user-friendly interfaces with HTML, CSS, Bootstrap, and JavaScript, along with secure authentication and input validation.

All-In-One Data Scraping | *Python · BeautifulSoup · Requests*

- Developed a web scraping solution to extract data from multiple sources into a unified pipeline.
- Processed and structured scraped data to support downstream analysis and reporting.

Quotes To Scrape | *Python · Web Scraping · Automation*

- Built an automated web scraping pipeline to collect and organize quote data from target websites.
- Implemented structured data extraction and storage to support scalable automation.

Student Management System | *Python · Flask · MySQL · Bootstrap*

- Developed a full-stack CRUD web application using Flask and MySQL with a responsive Bootstrap interface.
- Implemented Create, Read, Update, and Delete operations for managing student records.

EDUCATION

Master of Computer Applications (MCA) — LJ University, Ahmedabad	2026 – Present In Progress
Bachelor of Computer Applications (BCA) — Parul University, Vadodara	Completed 73%
Higher Secondary Certificate (HSC) — Mahaveer School, Rishabhdeo	Completed 82%

CERTIFICATIONS

- Data Science Course — [CodeWithHarry](#)
- Foundations: Data, Data, Everywhere — [Google](#)
- Data Visualization with R — [IBM](#)
- Generative AI: Introduction and Applications — [IBM](#)
- Introduction to Git and GitHub Basics — [Packt](#)
