Udaipur, Rajasthan, India | [lakshitsuthar158@gmail.com](mailto:lakshitsuthar158@gmail.com) | [linkedin.com/in/lakshitsuthar](https://www.linkedin.com/in/lakshitsuthar) | [github.com/lakshitbuilds](https://github.com/lakshitbuilds)

## PROFESSIONAL SUMMARY

Aspiring Data Analyst and Python Developer currently pursuing a Master of Computer Applications (MCA), with hands-on experience in Python, SQL, and the Pandas/NumPy/Matplotlib stack for data cleaning, exploratory data analysis (EDA), and data visualization. Built full-stack web applications using Django and Flask integrated with MySQL, including a role-based Hospital Management System, along with automated web-scraping pipelines for structured data extraction. Combines a foundation in basic machine learning concepts with practical software development skills, seeking to contribute analytical and technical expertise to a Data Analyst, Data Science, or Python Developer internship.

## TECHNICAL SKILLS

**Programming Languages:** Python, SQL, Java (OOP), C

**Web Technologies & Frameworks:** Django, Flask, HTML, CSS, JavaScript, Bootstrap

**Data Analysis & Visualization:** Pandas, NumPy, Matplotlib, Exploratory Data Analysis (EDA), Data Cleaning, Data Visualization

**Machine Learning:** Basic Machine Learning Concepts & Implementation

**Web Scraping & Automation:** BeautifulSoup, Requests, Automation

**Databases:** MySQL, SQLite

**Tools & Version Control:** Git, GitHub

## PROJECTS

**Hospital Management System** | *Django · Python · MySQL · HTML · CSS · Bootstrap · JavaScript*

- Developed a role-based hospital management web application using Django and MySQL to manage patients, doctors, receptionists, and administrative operations.
- Designed separate dashboards for Patient, Doctor, Receptionist, and Admin roles with role-based access control.
- Built appointment booking, patient registration, doctor management, medical records, prescriptions, notifications, and profile management features.

**Book Data Scraping & Analysis** | *Python, BeautifulSoup, Pandas, Matplotlib*

- Scraped book details such as title, price, and availability from the Books to Scrape website using requests and BeautifulSoup.
- Cleaned and transformed scraped data using Pandas, including price conversion and rating mapping.
- Performed basic exploratory data analysis and visualized book price distributions using Matplotlib.
- Exported the final structured dataset to CSV for further analysis.

**Customer Churn Prediction** | *Python · Pandas · NumPy · Matplotlib · Scikit-learn · Jupyter Notebook*

- Built a machine learning model to predict whether a customer is likely to leave a telecom service.
- Performed data cleaning, exploratory data analysis, feature encoding, and train-test splitting.
- Trained and evaluated classification models using Accuracy, Precision, Recall, F1-Score, and Confusion Matrix.
- Analyzed customer factors associated with churn to identify patterns in customer behavior.

**House Price Prediction** | *Python, Pandas, NumPy, Matplotlib, Scikit-learn, Jupyter Notebook*

- Developed a regression-based machine learning model to predict house prices using property-related features.
- Cleaned and prepared the dataset by handling missing values, selecting useful features, and preprocessing numerical and categorical data.
- Performed exploratory data analysis to study relationships between house characteristics and sale prices.
- Trained and compared regression models and evaluated their performance using MAE, MSE, RMSE, and R<sup>2</sup> Score.
- Created a complete Jupyter Notebook covering data preprocessing, visualization, model training, prediction, and evaluation.

## EDUCATION

**Master of Computer Applications (MCA)** — LJ University, Ahmedabad

2026 – Present | In Progress

**Bachelor of Computer Applications (BCA)** — Parul University, Vadodara

Completed | 73%

**Higher Secondary Certificate (HSC)** — Mahaveer School, Rishabhdeo

Completed | 82%

## CERTIFICATIONS

- Data Science Course — [CodeWithHarry](#)
- Foundations: Data, Data, Everywhere — [Google](#)

## LANGUAGES

English · Hindi · Gujarati
